

A solitary hero of modern times, the detective tracks the furyo (gangsters) of the streets of Tokyo without mercy. The black and yellow make a striking combination.

detective

MATERIALS

- Yellow drawing paper
- HB pencil
- Eraser
- Compass
- Felt pens: fine black, thick black, grey
- White watercolour paint

Draw the circle of the head with pointed chin and then add the main elements of the body (trunk, shoulders, arm and hand) by using simple geometric shapes.

Outline the accessories: the hat, the collar of the raincoat and the weapon. Draw the eye, nose and mouth.

Draw both hands, paying careful attention to the fingers. Draw the details of the gun, smoke and clothing. Draw the shadow lines on the hat and face.

Draw a circle on the yellow sheet around the character. Use the fine black felt pen to colour in the shaded part of the hat, face and clothes. Add the shadow of the character and his weapon with the grey felt pen. Use the white watercolour paint to add some highlights on the hat, face, clothing, hands and weapon. Use the thick black felt pen to colour in around the outside of the circle.
